

North-East HOPE Conference 2017

This professional development conference is suited to both primary and secondary teachers and pre-service teachers of Health, Physical Education and Outdoor Education. It is also suited to any teachers implementing the Respectful Relationships program within their school or classroom.

When: Friday 4th August.

Location: Wodonga Senior Secondary Collage

Event Programme: Elective session descriptions and conference agenda can be found here: <https://goo.gl/5AXoo9>

Cost: \$65 includes morning tea, lunch, espresso coffees and registration.

**** Special price of \$40 for Uni students and Pre-service teachers! Select 'Uni Student' when registering ****

Registrations: Due by Monday 31st July. Register online at: <https://goo.gl/ysUr3R>

Purpose:

The HOPE network was created to connect local teachers in the area of Health, Outdoor Education and Physical Education. The idea is to enable regional teachers to have access to high quality Professional Development in a local setting, as we regularly have to travel long distances to receive similar professional development. This conference is the culmination of resource sharing and networking amongst local teachers, to ensure their professional needs are met in a supportive, local context.

Format:

Throughout the day, attendees can select from 14 elective sessions focusing on Respectful Relationships, Health, Outdoor Education and Physical Education. There will be a Keynote presentation by Jarrod Robinson, The PE Geek, suggesting strategies for implementing ICT into all classrooms. A teach-meet is the highlight of the afternoon, where 6 experienced teachers give attendees a 10-minute snapshot of an activity they have used in their classroom.

You will learn:

Respectful Relationships VCAA Specialist Teachers, alongside local agencies have a jam-packed agenda to help teachers to implement the department's RRRR initiative.	Physical Education Curriculum AND practical sessions for Primary & Secondary settings, notably the PE Geek, Jarrod Robinson, will be hosting the keynote, and further sessions.
Outdoor & Environmental Studies Focusing on networking & local opportunities for secondary classes, supported by Outdoors Victoria.	Health: Mindful teaching and learning Local experts give practical applications for a mindful classroom.
